The grange accepted an invitation from Lebanon grange to meet with the latter in the observance of neighbors' day, Oct. 12th and furnish a portion of the program.

Think of it! A complete outfit of ARCOLA and four American Radiators will heat this whole house with healthful hot-water warmth—costing more to install than a stove for each room.

ARCOLA will add three times its cost to the value of your house

REMEMBER this about ARCOLA—it really costs you nothing. If you stay in your present house three years, ARCOLA will pay for itself in the coal it will save. Your Heating Contractor knows this; let him tell you the experiences of some of the thousands of ARCOLA owners.

If you plan to sell next Spring, ARCOLA will add much more than its cost to the selling-value of the house—just as IDEAL Boilers and larger AMERICAN Radiator systems add far more than their cost to the value of larger buildings.

And think of the comfort this winter of having every room warmed with ARCOLA's healthful heat—the same kind which one of our larger heating plants gives the White House itself.

Think of the joy of being free from dirty, stuffy stoves and hot-air furnaces forever. And the satisfaction of having plenty of hot water for washing and bathing besides!

ARCOLA is unlike any heating outfit you ever saw—a wonderful new invention—as handsome as a fine phonograph and costing hardly any more. Don't try to imagine what it is like; go to your Heating Contractor and let him show you today.

The red and yellow card at the left is the sign of a Heating or Sanitary Engineer (formerly called Steamfitter or Plumber) who can show you ARCOLA. Look for it in his window.

It will pay you to consult him twice a year as you do your Doctor or Dentist. To have him examine and report on your heating and plumbing costs little. It may save you a very great deal.

JOSEPH P. DAY, of New York, who has sold more real estate at auction than any other man in the world, says:

"One of the first things the buyer of a house asks about is the heating. An ARCOLA hot-water heating outfit costs less than the cost of the heating value of the house."

Foley's Honey and Tar

AN OLD RELIABLE FAMILY REMEDY, recommended for coughs, colds, tickling of the throat, spasmodic croup, whooping cough, the grippe, and bronchial coughs, hoarseness, etc.

The First Dose Gave Relief

C. E. Summers, Haldwade, N.H., writes: "Some time ago I contracted a very severe cough and cold due to exposure. My cough got so bad I could hardly sleep for two or three nights. A friend of mine recommended Foley's Honey and Tar Compound, and I got a bottle. The very first dose relieved me. I took a second dose before going to bed and was truly surprised to find that I was able to sleep. By using as directed the next two days my cough was entirely gone, and I am now feeling fine. I feel sure that I owe my recovery to Foley's Honey and Tar Compound."

For more than thirty years
Foley's Honey and Tar has been
used with satisfaction and success.

The Man Who Said: "The proof of the pudding is in the eating"— was only half through

He started a good pudding-proof, but he didn't finish it.

There's a lot of trouble in the world from puddings that taste good but don't do good.

They "eat" well, but that ends the recommendation.

Sanitariums are full of pudding-eaters who stopped the test at taste and forgot to inquire whether their food gave the body what it needed—until the body rebelled.

Grape-Nuts is a food that tastes good and does good. The proof of Grape-Nuts begins in the eating and goes on through the splendid service which Grape-Nuts renders as a real food. Grape-Nuts is the perfected goodness of wheat and malted barley—delicious to taste, easy to digest, and exceptionally rich in nourishment for body and brain.

"There's a Reason" for Grape-Nuts
